SUMMARY

I'm a software developer. I'm passionate about creating technological solutions with a social impact. I stand out for my focus on user experience, project responsibility, and my ability to quickly adapt to new development environments. I seek opportunities that allow me to continue growing as a developer while contributing innovative and functional ideas.

LABORAL EXPERIENCE

Software Developer (Part-time Contract) | Retina – CEMICIT AIP October 2024 - February 2025

- I developed a monolithic web dashboard with integrated frontend, backend, and MySQL database, allowing centralized management of users, roles, and locations by the UTP (Coclé Regional Center)
- I developed a mobile application (Android/iOS) that connects to the system, with real-time location functions, safe zone configuration and sending alerts to caregivers
- The platform was designed with a focus on accessibility and usability for people with disabilities.

Software Developer (Part-time Contract) | Retina – CEMICIT AIP September 2023 - February 2024

- I developed an Android app that facilitates medication management for older adults and people with cognitive disabilities, using NFC technology
- I implemented automated SMS alerts to keep caregivers informed
- I managed to deliver the functional solution in compliance with the established deadlines and requirements

EDUCATION

University Education - Bachelor's Degree in Software Development 2021 - Current
Technological University of Panama

Secondary Education - Bachelor of Technology 2014 - 2020
Rodolfo Chiari School

SKILLS

- Teamwork
 - Effective communication
 - Troubleshooting
 - Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js
